THE LAW NOT KNOWN.

Blissful Ignorance of Statutory Safeguards for Workers.

A CIGAR-BOX FACTORY WHICH THE IN-SPECTORS SHOULD VISIT.

Women and Girls at Work There, but the Owner Has Never Seen a Copy of the Statute and Knows Nothing of Its Terms -Several Violations Discovered by an " Evening World" Reporter - Charges by Little Girls Against an Employer.

It was suggested at the last meeting of the Workingwomen's Society that the cigar-box factory at 127 Attorney street offered a good field of observation for those interested in investigating the condition of factory hands.

This establishment was visited yesterday by an Evening World reporter. The street upon which it is situated is recking with mud and filth, and lines of carts stood on either side of the roadway. The sidewalks swarmed with babies and small children, come out to sun themselves in the warm rays that were also developing the gutter smells and bringing out the odor of decayed vegetables and fruit from the stock on some little curbstone

By contrast with the squalor without the factory appeared to good advantage when one entered. The industry which it repre sents is carried on in three lofts or floors. The women and girls work at the top of the building, and number about twenty in all.

They were all busy at work, and evidently disinclined to talk. One young girl, to whom the reporter addressed a question relative to the toilet conveniences provided for the women, flushed scarlet, and exclaimed hurriedly:

"Oh everything is very pice here. I'm

swered with a startled stare,
"I'm fourteen."
The stairways, three in number, were without hand rails or protection of any sort, and the two lower ones were entirely open, notwithstanding the fact that women must use their work. The closets provided are on the ground floor. They occupy a space about the size of an ordinary wardrobe. This is divided into three parts—"One for the men, one for the women and one for the office," said the proprietor, as he displayed these conveniences.

said the proprietor, as he displayed these conveniences.

The question of how long a time he allowed his employees for their noonday meal elicited this reply:

"They can have thirty minutes if they like. Most of them are doing share work—so much is given them for a day, and they can go home when they get done. Sometimes they prefer to work right along."

This man said he had never seen a copy of the Factory law, and knew nothing of the terms of it even.

When told that one of its requirements is that a copy of the law be conspicuously posted in each factory, he signified his willingness to procure and place one.

The power which operates the machinery in the factory is supplied from the adjoining building.

ACCUSED BY LITTLE GIRLS.

Serious Charges Made Against a Factor: Proprietur.

Charges which have a terrible significance to parents having children at work in factories and business houses are made by the Society for the Prevention of Cruelty to Children against Louis Levi, a manufacturer of lace ruffings and embroidery at 49 Greene

street.

The firm is Levi & Mayer, but Mr. Levi is the sole member. He is a bachelor thirty-eight years of age, and he boards at 124 East Sixty-second street.

Sixty-second street.

About sighty young girls are employed on the third and fourth floors of the factory. They work on sewing and ruching machines, and earn from \$2 to \$3 per week.

Two weeks ago George A. McKay, the factory inspector for this district, received a letter, saying that Mr. Levi was in the habit of taking liberties with his employees, and making indecent proposals to them. The letter gave the names of the girls.

Inspector McKay, with Agent Gardner, of Mr. Gerry's society, the latter assuming the role of Assistant Factory Inspector, went to the factory, but could get little information there.

there.
One of the girls was accosted as she left her work. She accompanied the officers to a little distance when she made statements which corroborated the story as to the indecent practices. From her Agent Gardner got the addresses of the two girls who said that they had been the victims of improper overtures.

The little girl's earnings were of too much importance to the Issaes family to allow of

Agent Gardner says that he has four additional complaints against Levi. He will not give their names, saving that they are still at work in the factory, and he fears that they would be tampered with if their

Last night's meeting was presided over by Delegate John J. Sullivan, of the State and Metal Roofers' Union, a young man who understands his duties well. Delegate Cokeley of the Paper-Hangers' Union, was Vice-Chairman, and Secretary Pratt kept the record.

Credentials were received from the Progressive Association, Progressive Painters' Union No. 6, and the English-speaking Framers' Union, and their delegates were admitted.

A communication from the Beatmen's In-

National Brewers' Union were ratified by the section unanimously.

Thirteen organizations reported action on the resolution providing for the withdrawal of the section from the Central Labor Union.

Three have voted in favor of withdrawal conditionally and three unconditionally, and seven decided against withdrawal. The time was extended two weeks, in order to give the other unions represented in the section time in which to meet and act on the report.

The committee appointed at the previous meeting to visit the Board of Walking Delegates and request that body to take some action in the case of Walter Scott, of Harlem, who employs non-union painters and paper-hangers, reported that the Board had sent a committee to inquire into the matter, and that it would report as soon as possible. Delegate McLaughlin, for the information of the Section, announced that the Board had the case in hand in such a manner as to insure success.

A report that Kreiztberg & Bitthoff are employing non-union painters and do not pay union wages nor grant the nine-hour rule was referred to the Grievance Committee.

Delegate McCabe, of the Plumbers' Union, was elected to represent the Section in the Central Labor Union.

All present signed the petition of the Workingwomen's Association to the Legislature praying for the passage of the bill for the appointment of six deputy inspectors who shall be women.

The union voted its unqualified support to the Elgis Association of butchers in their struggle with Mr. Eastman, who is now under the ban of the boycott.

The election of officers was postponed until next Wednesday night, when a special meeting will be had at 1110 Second avenue.

Talked of by Workingmen The United Piano-Makers will give their eleventh

annual ball in Webster Hall to-night.

All the building trades are making a combined move for the enforcement of the nine-hour rule in this city and immediate vicinity.

The Central Labor Union will meet to-morrow afternoon as usual. The brewers' troubles will be the most important matter for discussion.

Delegate Kandler, of the United Uphoisterers, conducted the proceedings of the Furniture-Workers' Section last night at the meeting at 146 Eighth attest.

Furniture Workers' Union, No. 7, will hold a meeting in Ciarendon Hall shortly for the purpose of extending the organization. Editor Jonas, of the Volks Zettung, will deliver an address.

The resolutions adopted by the Central Labor Union in support of the Brewery Workingmen's Union were unanimously indured by the Furniture-Workers' Section last night. Delegates from the Custom Varnishers' Union, Furniture Machine Woodworkers' Union No. 19 and the Progressive Wood Turners' Union were ad-mitted to scats in the Furniture-Workers' Section

The Painters engaged by Switzer & Miller, at One Hundred and Fourteenth street and Madison avenue, went on strike yesterday for \$3.50 a day of nine hours, and after remaining out for a short time their employers conceded the demand.

Beck & Rosenteck, employing printers in Sixth avenue, agreed to pay union wages to their men, seconding to the report of Delegate McLaughlin, but they failed so to do, and all bands were called out, but subsequently returned, after the drm had agreed to pay \$5.50 a day.

walking-Delegate Farrell, of the United Order of American Carpenters and Joiners, says that he did not go to Fiorida for his health, as reported, but that on the contrary his physical condition is so good that he is always on duty looking out for the interests of union carpenters and joiners. He has no need of a change of climate nor of the services of doctors.

The men thereupon returned to work.

The Purmiture Workers' Section will send a communication to the Plassman Association of wood-carvers and the New York Wood-Carvers' Union, asking them if they will so after their constitutions as to make them harmonize with the Central Labor Union's. It will be remembered that both the societies of carvers mentioned above were suspended from the central body because their constitutions prohibit them from engaging in sympathetic arrived.

Expose the Medium's Queer Ways.

The withdrawal of Mme, Ann O'Delia Diss Debar from her agreement to publicly produce her spirit-pictures in the presence of Prestidigitateur Herrmann has not had the effect of swerving the professor of black art from his set purpose to expose her.

Prof. Herrmann anounces his intention of giving on some coming Sunday, in a prominent theatre in this city, an exhibition of cabinet and slate writings and pictures on canvass much more perfect than the medium produced to impose upon poor Luther R. Marsh.

After the exhibition the Professor will explain that it was all sleight-of-hand, and show just how the deceit was practiced.
A cloud which threatens exposure and punishment is rapidly gathering over the heads of Mme. Diss Debar and the two Lawrences. The impending bolt will be hurled by Mr. J. W. Boy Baby Alone Left of the Family-A Russian Hebrew Who Could Not Get Employment-The Wife Sought Crusts in Ash Barrels -Rent-Day Came and There Was No Money-The Last Dime Spent for But Polson, Which They Drink Together.

Death was courted as a happy relief from life of poverty by two tenants in the rickety wooden tenement at 57 Crosby street last night, and after several hours of poignant suffering it came to the poor starving souls this morning.

The suicides were Russian Hebrews, man and wife, who had lived in a narrow atticroom in the rear of the wretched building since March 5, paying \$5 for their miserable accommodations,

The husband had given the name of Gol-

with a written request to apply at a Church street tailoring establishment.

Twice these messages came and were translated by Mrs. Christiana Deering, who occupied the room opposite the Golsteins.

Neither husband nor wife understood English, but both did understand and speak German imperfectly, and in this language Mrs. Deering conversed with them occasionally. She was the only one of the neighbors who knew anything concerning them, and she did not know their name—only that the man was a tailor and was unable to get work.

For a whole month the staving family had been fighting the wolf Poverty; the man had been in constant search for work, but he always returned unsuccessful and depressed. The woman sought eagerly for crusts in the ash-barrels, and the man always returned to his miserable home with a stick or a bit of coal to feed the fire in the cracked piece of coat iron which served them for a stove.

Four days ago Goldstein went out carrying his sawing machine, the only piece of furniture in his room besides a lounge, mattress, the stove, an old deal table and a stool. This he must have pawned or sold and devoted the money obtained to feeding his starving family.

In response to a question as to what was the matter, the suffering woman said: "Go for the police."

Mrs. Deering did not go for the police, but returned to her room.

At 2 a. M. the man, whom she had heard striding up and down the hall in front of her door, stopped and rapped at it. She answered the summons, and the poor fellow, who reeled as if drunk, said in German: "We have taken poison. Get a policeman." Mrs. Deering hastened to the Mulberry street station and Patrolman John M. Delay accompanied her to the room. Goldstein told him that his name was Hanz Stockrica and his wife's name Fanny. He said that they had taken rat poison, but had given none to the child. He would give no reason for their desperate deed. To the observer who could witness the extremity of their destitution none was needed.

MONCTON, N. B., April 7. — A terrible tragedy occurred at Painsec Junction at noon

yesterday. A fortnight ago Thomas Bastian, of Painsec, was convicted of a second violation of the Temperance act and fined \$100.

To-day Constable James Farrell came to Painsec with a warrant. He entered Beatian's place and, after some conversation, offered to settle for \$59. Bastian refused to pay anything, saying he did not consider he had been properly convicted. Farrell said he would have to proceed to

execute the distress warrant, and was warned by Bastian not to touch anything. Farrell started for Bastian's bar, and Bastian went into his bedroom, got a loaded 38-catibre re-

into his bedroom, got a loaded 38-calibre revolver, and, coming back, fired a bullet into Farrell's abdomen.

Bastian's wife rushed in and caught his arm, when he discharged another shot into the ceiling.

Farrell staggered out of the house crying "My God, I am shot." Bastian, half crazed by the enormity of his crime, went into his bar, and saying he would never be hanged for that, put a bullet in his brain, the shot en ering just above his right temple, killing him instantly. Bastian never uttered a word after failing.

came to his death by a pistol shot fired by his own hand.

Bastian was formerly section foreman on the Intercolonial Railway.

Farrell's injuries may prove fatal. This afternoon the doctors had not succeeded in probing the wound.

The tragedy created a great sensation is Monoton, where the parties are both well known.

These girls were Hattie Issacs, aged twelve
years, of 37 Jefferson street, and Ada Hess,
aged fourteen years, of 207 Stanton street.

One afternoon Hattie, who is the daughter of Solomon and Itachel Issacs, ran home
from her work earlier than usual and told her
mother that Mr. Levi had seized hold of her
and spoken indecent words to her. Her
mother was very indignant, but told Hattie
to go back to work, and if snything of the
kind happened again she would have the man
arrested.

The little girl's earnings were of too much

importance to the Isaacs family to allow of more summary action being taken.

Ida Ress is the daughter of Assistant Rabbi Levi Hess, of the Stanton street Synagogue. She tells a story similar to Hattle's, but says that she was too much afraid of losing her position to tell her mother at first. The svil continued, however, and both girls had to leave the factory.

Agent Gardner got a warrant for Levi's arrest from Justice Patterson, and on Tuesary evening went to the factory. He says that when he made the arrest Mr. Levi asked his bookkesper for \$50 and offered it to him, saying:
